
POLLUTANT CLEAN UP AND REMOVAL

(The information required below may be shown on the "declarations".)

Additional Aggregate Limit \$ _____

Deductible \$ _____

INCIDENTAL PROPERTY COVERAGES

Under Incidental Property Coverages, the \$10,000 annual aggregate "limit" for Pollutant Clean Up and Removal is increased by the Additional Aggregate Limit shown in the schedule above.

The additional coverage provided by this endorsement does not apply until the total of all expenses to extract "pollutants" from land or water exceeds the sum of:

1. the primary \$10,000 aggregate "limit" from the Incidental Property Coverage -- Pollutant Clean Up and Removal, less any prior payments made during the same policy year; and
2. the deductible shown above.

"We" pay the expenses in excess of that sum, until the Additional Aggregate Limit shown above is exhausted during the applicable 12-month period.

No other deductible applies to this endorsement.

Example

Total "pollutant" clean up and removal expense	\$30,000
Remaining aggregate from the basic Incidental Property Coverage (assume \$7,000 in prior payments during the same policy year) \$3,000	
Deductible	\$5,000
Additional Aggregate Limit	\$25,000

Loss payment under this endorsement is determined as follows:

Total "pollutant" clean up and removal expense	\$30,000
Minus the sum of the remaining aggregate from the basic Incidental Property Coverage and the deductible (\$3,000 + \$5,000)	\$8,000

"We" pay no more than \$22,000. The remaining benefit under this endorsement for expenses incurred for the policy year is \$3,000.
